

***Lepidium virginicum***

**System:** Terrestrial

Kingdom	Phylum	Class	Order	Family
Plantae	Magnoliophyta	Magnoliopsida	Capparales	Brassicaceae

**Common name**

Virginia cress (English), momili (English, Niue), Virginian peppergrass (English), Virginia pepperweed (English), wild peppergrass (English), culantrillo (Spanish), menstruz (Portuguese), mastuerzo (Spanish), mastruz (Portuguese), mancuerno (Spanish), lentejilla (Spanish), mastuerzo silvestre (Spanish), cresson savane (French), passeraie de Virginie (French), naunau (English, Cook Islands), cresson sauvage (French), poorman's-pepperwort (English), peppergrass (English), mastruço (Portuguese), escobilla (Spanish), poorman pepperweed (English), poorman's pepper (English), cresón (Spanish), lépidie de Virginie (French)

**Synonym**

**Similar species**

**Summary**

*Lepidium virginicum* is a weed of agronomic, vegetable, orchard, and nursery crops. It is reported to have naturalised on disturbed sites in Hawaii and the western United States, and spreading rapidly on Grand Cayman.

[view this species on IUCN Red List](#)

**Notes**

Five direct children have been recognised: *Lepidium virginicum* var. *medium* (Greene) C.L. Hitchc. (medium pepperweed); *Lepidium virginicum* var. *menziesii* (DC.) C.L. Hitchc. (Menzies' pepperweed); *Lepidium virginicum* var. *pubescens* (Greene) Thellung (hairy pepperweed); *Lepidium virginicum* var. *robinsonii* (Thellung) C.L. Hitchc. (Robinson's pepperweed); *Lepidium virginicum* var. *virginicum* L. (poorman's-pepperwort, Virginia pepperweed).

**Management Info**

Preventative measures: A [Risk Assessment of \*Lepidium virginicum\*](#) for the Pacific Region was prepared by Dr. Curtis Daehler (UH Botany) with funding from the Kaulunani Urban Forestry Program and US Forest Service. The alien plant screening system is derived from Pheloung *et al.* (1999) with minor modifications for use in Pacific islands (Daehler *et al.* 2004). The result is a high score of 17 and a recommendation of: "Likely to cause significant ecological or economic harm in Hawaii and on other Pacific Islands as determined by a high WRA score, which is based on published sources describing species biology and behavior in Hawaii and/or other parts of the world."
