

## *Launaea intybacea*

**System:** Terrestrial

Kingdom	Phylum	Class	Order	Family
Plantae	Magnoliophyta	Magnoliopsida	Asterales	Asteraceae

**Common name** achicoria azul (English), bitter lettuce (English)

**Synonym** *Bracyrhaphus intybaceus*, (Jacq.) DC.  
*Lactuca intybacea*, Jacq.

### Similar species

**Summary** Bitter lettuce (*Launaea intybacea*) is a native of Africa and has been introduced to parts of lower Northern America, the West Indies, Central America, South America, temperate and tropical Asia. A cosmopolitan weed it is adapted to dry conditions. It is reported to be spreading rapidly in disturbed areas on Grand Cayman.
