

**DD (Data Deficient)** *Sclerophrys gutturalis*

<b>Date assessed</b>	2020-12-10
<b>Year published</b>	2021
<b>Eicat category</b>	DD (Data Deficient)
<b>Justification for EICAT assessment</b>	Predation by <i>S. gutturalis</i> has not been recorded through either observational or experimental studies. Rather the potential predation of <i>S. gutturalis</i> on native invertebrates and subsequent observed decline in populations has been speculated with no real data to support these speculations.
<b>Confidence rating</b>	Predation
<b>Mechanism(s) of maximum impact</b>	Predation
<b>Countries of most severe impact</b>	Mauritius
<b>Description of impact</b>	
<b>Assessor</b>	John Measey; Carla Wagener
<b>Contributors</b>	Sabrina Kumschick; Mohlamatsane Mokhatla; James Baxter-Gilbert; Corey Thorp; Alexander D. Rebelo; Giovanni Vimercati; Sarah J. Davies; F. André de Villiers; Nitya Prakash Mohanty; Khensani Nkuna
<b>Reviewers</b>	EICAT authority
