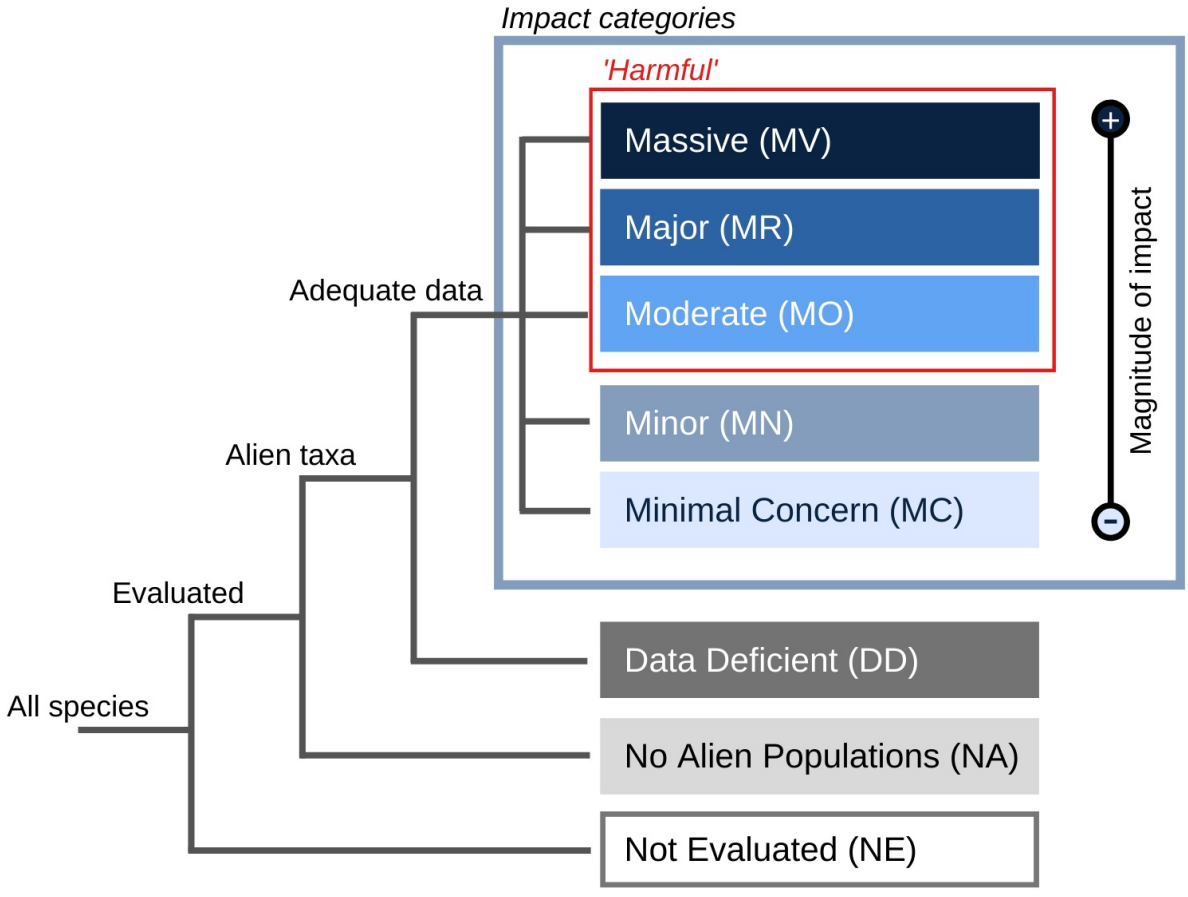
MC (Minimal Concern)Psittacara mitratus


| | |
|---|---|
| **Date assessed** | 2021-10-12 |
| **Year published** | 2023 |
| **Eicat category** | MC (Minimal Concern) |
| **Justification for EICAT assessment** | The Mitred Parakeet has been observed to displace Great Frigatebirds (Fregata minor) from roosting areas and to compete with shearwaters (Puffinus spp) and petrels (Pterodroma spp.) for nesting sites in cliff-side burrows. There is no evidence that this has affected the peformance of these species (MISC 2002). |
| **Confidence rating** | Low |
| **Mechanism(s) of maximum impact** | Competition |
| **Countries of most severe impact** | U.S.A. |
| **Description of impact** | The Mitred parakeet competes with native bird species on Maui. |
